INTRODUCTION

BACKGROUND

The first annual statistical report on procurement by UN agencies in respect of operational activities, prepared by the Inter-Agency Procurement Services Office (IAPSO) of the United Nations Development Programme, was submitted to the 39th session of the General Assembly (Doc. A/39/417) in 1984. By resolution 39/220 the General Assembly established the need for recurrent reporting of such information on operational activities and encouraged organizations of the UN system to co-operate with IAPSO in this important exercise.

To obtain more complete reporting on operational activities, data on other components of technical cooperation, such as project personnel, United Nations Volunteers and fellowships was included as from 1991. Experience has shown that it has proven very difficult for a great number of agencies and UNDP field office to provide data on personnel components in the required format. Several UN agencies encounter difficulties in apportioning cost of the personnel components in view of insufficient links between administrative and financial records. Resulting in less than representative data being available for presentation in the Annual Statistical Report.

PREPARATIONS

Statistical data on procurement of goods and services and the personnel components for operational activities are requested from 42 UN organizations as well as by UNDP's network of Country Offices. To facilitate collection and compilation of the large number of data, IAPSO provides pro-forma tables available from the IAPSO website or on diskette, together with instructions for completing the reporting requirements.

ASR 2004

The 2004 report compiles information provided by 34 UN organizations and 132 UNDP Country Offices. IAPSO relies entirely on the co-operation of the reporting entities and, in general, the responses have been encouraging and the quality of data has steadily improved from previous years. The information from UNDP Country Offices was provided for projects under National Execution (NEX) and Direct Execution (DEX) modalities.

Data collection from UN agencies involves processing of reports on procurement of goods and services received from supply divisions and procurement units. Data on procurement is reported based on country of procurement for goods and country of head office for services. Moreover, procurement orders and contracts for services are reported on the basis of contract amount and not on expenditures incurred. It is, at the present time, not feasible for most UN agencies to report data based on country of origin of goods nor on actual expenditures.

Data on procurement of goods and services are based on reports from ECLAC, ESCAP, ESCWA, FAO, IAEA, ICTR, IFAD, ILO, ITC, ITU, PAHO, UN/PS, UNCTAD, UNDP, UNDP/IAPSO, UNECA, UNECE, UNESCO, UNFPA, UNHCR, UNICEF, UNIDO, UNOG, UNON, UNOPS, UNOV, UNRWA, UNU, UNV, WFP, WHO, WIPO, WMO and WTO. No data were reported by CTBTO, ICAO, ICTY, IMO, UNECA, UPU.

Almost all UNDP country offices supplied data on the procurement of goods and services, except for the following based in these countries; Croatia, Cyprus, Democratic People's Republic of Korea, Equatorial Guinea, Guinea-Bissau, Kazakhstan, Liberia, Namibia, Nigeria, and the Democratic Republic of the Congo.

The overall procurement volume of UN Agencies during 2004 increased to USD 6.4 billion from USD 5.1 billion in 2003, representing an increase of approx. 25.4%. This increase is attributable to most UN agencies experiencing an increase in overall procurement volume.

Procurement from Developing countries has increased by USD 320 million in absolute terms but decreased in percentage terms by 4.6 % from the previous year.

Glossary of Terms

Procurement:	Refers to the acquisition of goods and services.
Goods:	Comprises both equipment and supplies.
Services:	Concerns subcontracts with contractors or consulting firms and does not include hiring of individual experts and consultants.
International Project Personnel:	Experts and consultants hired internationally for technical cooperation activities.
National Project Personnel:	National personnel of all categories, including experts and consultants, hired locally for technical cooperation activities.
United Nations Volunteers:	Volunteers administered by the United Nations Volunteers for technical co-operation activities and humanitarian assistance.
Fellowships:	Scholarships and study tours awarded to individuals for study and training within various operational activity programmes. Group training activities, seminars, etc., which do not involve individual award of a scholarship are not included.
Developing Country (DC)/ Economies in Transition:	Relates to a country for which UNDP provides financial/technical assistance. The list of countries is attached as Annex 2.
All sources of UN funding:	Covers technical cooperation and other development assistance from regular, extra budgetary and trust funds, as well as emergency, humanitarian and peacekeeping operations.
National Execution (NEX):	Operational arrangement whereby the recipient government assumes responsibility for execution of technical assistance projects and programmes, mainly under UNDP funding.
Direct Execution (DEX):	Operational arrangement whereby UNDP in special circumstances assumes responsibility and accounts for the performance of the execution of technical assistance projects and programmes, mainly under UNDP funding.
UNDP Funding:	Funds allocated to technical cooperation from core funds, special programme resources and UNDP administered trust funds such as the Global Environmental Facility (GEF) and Montreal Protocol, including cost sharing contributions.
Agency Programme (AP):	Funds allocated to operational activities from the regular programme of the reporting agency.
